**W&H Systems, Inc. names Chris Castaldi
Manager of Business Development**

For Immediate Release:

Carlstadt, NJ: August 15, 2011 – W&H Systems, Inc. a material handling systems integrator named Chris Castaldi as its new *Manager of Business Development*.

Chris has over 25 years of experience in the material handling industry, for companies like Komatsu, FKI Logistex and AL Systems.

“This addition to our sales team will further strengthen our ability to meet customer needs”, notes Don Betman, President of W&H Systems. His specialty is helping clients optimize the flow of merchandise through their distribution centers, reducing labor, eliminating charge backs, always with a focus on "Return on Investment". “In addition, Chris will leading our Marketing Team in a new direction with the focus of strengthening our company’s image and our presence in the market place.”

About W&H Systems, Inc.:

W&H Systems; One of America’s most experienced integrators of automated material handling systems, specializes in optimizing the flow of merchandise through warehouses while minimizing labor and maximizing space utilization. By providing the “*Total Solution*”(needs assessment, design, software, equipment, implementation, commissioning and support) W&H insures innovative solutions today, for tomorrow’s requirements.
