## **W&H Systems, Inc. partners with PE Engineering Sales.**

### **For Immediate Release:**

Carlstadt, NJ: September 12, 2011 – W&H Systems, Inc. a material handling systems integrator partners with *PE Engineering Sales*, Orchard Park, NY.

W&H Systems and PE Engineering have established a strategic partnership, allowing PE Engineering to offer W&H Systems' "Total Solution" of automated material handling equipment to their customers in the automotive, pharmaceutical and other manufacturing industries in the northeast United States.

Don Betman, President of W&H Systems states: "We anticipate that this partnership will stimulate our presence in other industries outside of retail distribution, where our focus has primarily been in the past".

### **About P.E. Engineering Sales:**

*PE Engineering Sales* develops solutions for warehouse/distribution control, automation, and manufacturing applications, particularly in the areas of material handling and ergonomics. PE Engineering Sales works with clients to understand their business needs, establish realistic budgets then identify equipment and services that help improve the client's bottom line.

### **About W&H Systems, Inc.:**

W&H Systems; One of America's most experienced integrators of automated material handling systems, specializes in optimizing the flow of merchandise through warehouses while minimizing labor and maximizing space utilization. By providing the "*Total Solution*"(needs assessment, design, software, equipment, implementation, commissioning and support) W&H insures innovative solutions today, for tomorrow's requirements.
